Case. Refresh.

(Optional. It is up to you. We refresh cases like new!)

If you have the desire for a caserefreshing we have two different variants. Firstly, we can work up your case during the revision, then your watch is already open. This is the recommended and cheaper option. During refurbishment, case parts are regrounded, polished or replaced with new parts. New sapphire glasses are usually included in the price. The case refurbishment is very different in terms of effort, so please pay attention to the prices listed below.
